

## **ANDROID Workshop**

(A two days workshop on Android Apps)

*A Place for Innovative Minds!!!*

## About Us

Since the beginning we have always followed the philosophy of the 3 "joys":

"The joy of learning"

"The joy of knowledge"

"The joy of teaching" .... in the very same order.

### How it all started:

We started out as a bunch of graduates from a couple of engineering colleges looking to work in the field of education owing it to either our backgrounds or interests. We were aware of the cut-throat competition in this field but we knew we had something different to offer to the students because we were one of them a few months back. We were a team of 5 boys working in the companies we were placed from the DCE campus and at the same time working on our weekends towards our hobby that was teaching. Hence we saw ourselves growing beyond our imagination and reaching out effectively to the various colleges/universities of the country.

### What we do:

As the name "GO FOR TECH" suggests we are a **technology driven** company which provides educational services to a **vast client base** that includes students and professionals. We offer comprehensive engineering services in the areas of IT Security and Ethical Hacking, Embedded Robotics, Automotive Mechanics & IC Engines. We extend our educational services by conducting technical workshops and industrial training in various engineering colleges and schools to inculcate the spirit of technological advancement in the engineering youth of India.

Due to the lack of quality education as well as commercialization of education sector in India, we have designed our training courses to **very high standards** & keeping in mind the requirement of the industry. Our cost effective, flexible and value based delivery of courses makes our services prominent in academia and industry. Our association with various Student Collegiate Clubs, Non Profit Organizations and our Educational Partners provide us an access to reach students in every part of the country.

*A Place for Innovative Minds!!!*

## Our vision

**Go 4 Tech** aims to give India's most reputed workshop in the field of Android Technology. It aims to train participants and produce skilled animator and equips them with all the tools, techniques and methods. Go 4 Tech had trained many students across India. The live interactive sessions, practical lab sessions and real life examples will take participants inside the minds of technocrats.

## What is Android Technology?

Android is a one type of handheld open source operating system which controls mobile devices such as Mac OS, Windows or Linux. First of all android is developed by Android Inc. Now a days, in the platform of *mobile application development*, android has a very large and demanding market. Also in the market of mobile phone the demand of android phone is become in efficient demand.

Android Application development is a set of core applications including an email client, SMS program, Calendar, maps, browser, contacts, and others.

### Advantages of Android Development:

- Android is based on Linux.
- Availability of open source software development kit for Android OS.
- Android offers to use a set of development kit to its developer but other smart phones doesn't allow.
- More Accurate
- Looking very attractive and complete smart phone.
- Easy to use.
- Include useful Faculties such as Audio, Video, MP3, Bluetooth
- Easy installation process for developer
- Including open GL library

TM

## Process Guidelines

- We want your association with us to make this workshop big success in your college.
- A proper publicity will be done about the event at the All India Level
- Date of conducting the workshop can be finalized by telephonic conversation with Coordinator/ Convener or Secretary, Go 4 Tech, according to the College feasibility and slots available in our calendar.
- The entire workshop will be conducted at college campus.
- Each student participating in the workshop will get a participation certificate.

## Benefits of associating with us...

An email will be sent to more than 1 lakh users of our web partners about your college workshop. Posters and Flexes will be sent to you for effective regional publicity. All India publicity through SMS will also be done.\*

- Interactive Query sessions, Live Demos, PowerPoint Presentation.

## Course Duration

12-14 hours (To be covered in two days.)

## Workshop Handouts

**Go 4 Tech** Software tool kit CD Pack.  
**Go 4 Tech** Course ware.

## Certification Policy

- “Certified of Participation” to each participant.
- “Certificate of Coordination” for all of the coordinators (Max. 5)

## Eligibility Criteria

- Students from any branch are eligible for this program.
- The pre-requisite for joining this workshop is zero.

## Fees

- Rs. 1199/- per participant only (Including taxes)

These fees include workshop training, software pack, certification, government taxes and other human resource charges.

## Topics to be covered in Android Technology Workshop

1. Mobile Application Development
  - Mobile Devices Profile
  - Mobile Software
  - Option for development
2. Targeting Android - The BIG Picture what is Android??
3. Development Environment
  - The Android SDK
  - Building an Android application in Eclipse
  - The Android Emulator
  - Debugging
4. User Interfaces
  - Activity Life cycle
  - Creating the Activity
  - An overview of user interfaces
  - Using XML layouts
  - Selection Widgets
  - The Web view & the Web Kit Browser
  - Dialogue Boxes: Alert Dialogue & Toast
  - Using Resources
5. Intents And Services
  - Working with Intent Classes
