

Glider Making Workshop

(One Day workshop on Fabrication of Glider and Aero Dynamics)

About Us

Since the beginning we have always followed the philosophy of the 3 "joys":

"The joy of learning"

"The joy of knowledge"

"The joy of teaching" in the very same order.

How it all started:

We started out as a bunch of graduates from a couple of engineering colleges looking to work in the field of education owing it to either our backgrounds or interests. We were aware of the cut-throat competition in this field but we knew we had something different to offer to the students because we were one of them a few months back. We were a team of 5 boys working in the companies we were placed from the DCE campus and at the same time working on our weekends towards our hobby that was teaching. Hence we saw ourselves growing beyond our imagination and reaching out effectively to the various colleges/universities of the country.

What we do:

As the name "GO FOR TECH" suggests we are a **technology driven** company which provides educational services to a **vast client base** that includes students and professionals. We offer comprehensive engineering services in the areas of IT Security and Ethical Hacking, Embedded Robotics, Automotive Mechanics & IC Engines. We extend our educational services by conducting technical workshops and industrial training in various engineering colleges and schools to inculcate the spirit of technological advancement in the engineering youth of India.

Due to the lack of quality education as well as commercialization of education sector in India, we have designed our training courses to **very high standards** & keeping in mind the requirement of the industry. Our cost effective, flexible and value based delivery of courses makes our services prominent in academia and industry. Our association with various Student Collegiate Clubs, Non Profit Organizations and our Educational Partners provide us an access to reach students in every part of the country.

A Place for Innovative Minds!!!

Our vision

Go 4 Tech aims to give India's most reputed workshop in the field of Aero Modeling and Airplane design. It aims to train participants and produce skilled engineers and equips them with all the tools, techniques and methods. Go 4 Tech had trained many students across India. The live interactive sessions, practical lab sessions and real life examples will take participants inside the 3D Animation and Special Effects and teach them how to make and manage their own animated clips.

Key Benefits

- We will be designing the student knowledge in the field of aero modeling & Airplane designing by giving them the knowledge of all the aero modeled System and introducing them to the needs of the current aero modeling technology sector.

Benefits of associating with us...

An email will be sent to more than 1 lakh users of our web partners about your college workshop. Posters and Flexes will be sent to you for effective regional publicity. All India publicity through SMS will also be done.*

Requirements

- Seminar hall/classroom having a capacity enough to conduct hands-on-session for all participants.
- Good Quality public address system ideally two cordless mikes will be required. TM
- Projector/ Screen along with black/white board for teaching and presentation purposes.
- One small stereo jack cord to connect in laptop for its sound system.
- Internet Connectivity in the seminar hall/classroom is must.
- **The workshop center can only be arranged for a minimum of 100 students.**

Responsibility of an organizer

- Hospitality (2 days) for a team of 3-4 members.
- Pick and Drop facility from the nearest railway station/bus stop/ airport.

Workshop Highlights

- Receive an unparalleled education from **Go 4 Tech** team with personal one-on-one attention.
- Learn and interact with one of the respected authorities on Android Technology.
- Improve your job prospects and get an edge over your counterparts.
- Interactive Query sessions, Live Demos, PowerPoint Presentation.

Course Duration

12-14 hours (To be covered in two days.)

Workshop Handouts

Go 4 Tech Software tool kit CD Pack.

Go 4 Tech Course ware.

Certification Policy

- “Certified of Participation” to each participant.
- “Certificate of Coordination” for all of the coordinators (Max. 5)

Eligibility Criteria

- Students from any branch are eligible for this program.
- The pre-requisite for joining this workshop is zero.

Fees

- Rs. 700/- per participant only (Including taxes)

These fees include workshop training, software pack, certification, government taxes and other human resource charges.

Topics to be covered in Glider Making Workshop

The Workshop is divided in 3 Modules

1. Understanding Flights
2. Design and Fabrication of aircrafts
3. Testing of Gliders
